

## Pontoon Guidelines.

The pontoon has been open since 16<sup>th</sup> May and is available to RCYC and Corinthian Otter members only for launching, recovery and access to vessels for personal use. No guests or visitors at the current time please.

Members are requested as always, to stay within the government guidelines, maintain social distancing and be both considerate and conservative when engaging in boating activities.

Please remember that the Club has not got rescue boats out. If the RNLI are called out that means that they – and probably you – can no longer socially distance and this should be avoided if possible. Stay alert.

**At this time all other club facilities, in particular the changing rooms, boat sheds and clubhouse remain closed. The car park, dinghy park and boat yard, remain open.**

The officers are working on revised procedures to enable the crane and changing rooms to be used prior to the opening of the clubhouse (which cannot be before the 4<sup>th</sup> July).
