

Keelboat Endeavour 2024

Overview

The Royal Corinthian Yacht Club is the home of the annual Endeavour Trophy. Now in its 63rd year, it's where dinghy National champions compete to be crowned "champion of champions".

There is now an opportunity to extend this mantra to the keelboat world with the Keelboat Endeavour Trophy, to be raced in the RCYC 707 keelboats using the successful British Keelboat League format.

We're seeking interested national fleets to join in the Keelboat Endeavour to be held in April 2024

What is it?

The event consists of a 2-day series of "round robin" short course fleet racing in 707 matched keelboats. With a target time of 15 minutes per race the emphasis is on as many short races as quickly as possible and the result is up to 25 exciting, high-speed, close-quarter races.

Teams switch from boat to boat and compete against each other several times to keep a level playing field and to negate any perceived technical advantage.

The helm must be a National Champion with a crew from the class to make up a team of four or five

What is it going to achieve?

A major objective is to bring together like-minded National Champions to compete and socialise together. The ultimate goal is to crown the UK Keelboat Endeavour "Champion of Champions," which carries with it not only satisfaction and prestige but also bragging rights on the circuit. Amongst that is excellent racing and a perfect chance to sharpen up for the forthcoming season.

When is it?

April 20th and 21st 2024

Where is it?

The two-day short-course fleet racing event will be held at the Royal Corinthian Yacht Club, Burnham on Crouch Essex.

How do I get involved?

Any Keelboat Class wishing to enter should complete the entry form.
